

PROLOGUE BATCH 2

Chapter 7 Blended Malt Scotch | 2022 Release

The second release of the series was bottled at 47% for a smoother tasting experience. The Prologue Series is created from vibrant Speyside and Highland single malts aged in bourbon wood. These whiskies are enjoyed straight as a daily dram and a perfect mixer in cocktails. This blended malt is curated from younger single malts at their prime age just when they are developing their Highland and Speyside characters. A great entry-level whisky with sweet, earthy, grassy and spicy notes. Prologue Batch 2 is limited, only 6000 bottles were released in 2022.
