

NAKAL_{GIN}

Southeast Asian Botanicals

Handcrafted with authentic Southeast Asian botanicals including pandan, calamansi lime, cassia and 6 others give Nakal its complex and distinctive flavor. Unlike any other gin, Nakal is created by distilling three unique spirits that are cut tight from the hearts, unfiltered, and then blended at 46% ABV to achieve an intensely smooth and aromatic gin. Handcrafted in Switzerland

Tasting notes

Aroma

Robust and exotic with the unique aroma of pandan and calamansi lime dominant on the nose.

Taste

Perfectly balanced. Cassia lends a fresh spiciness while galangal and calamus round out the body and provide complexity.

Finish

A long finish allows one to savor and reflect on its distinctive origins.
