

MACALLAN AMBER MEADOW

Harmony Collection III | Single Malt Whisky 2023

Macallan presents the third release of the Harmony Collection in collaboration with Stella and Mary McCartney. This bottling celebrates the fertile grasslands of Scotland and highlights the importance of sustainability by incorporating recycled natural materials into its packaging, including meadow cuttings in the presentation box and labels on the bottles. The presentation box features Mary McCartney's photography of The Macallan Estate. Drawing inspiration from the Scottish landscape, the Macallan Whisky Mastery Team crafted a unique expression reminiscent of the warm meadows and barley fields of the region, ending with a luxurious citrus-infused whisky, matured in sherry seasoned oak and bourbon casks.
